

VIMP documentation

Table of contents:

- Changing the default passwords

Changing the default passwords

 Download PDF

Change the default passwords of the users mentioned above urgently at your very first login by navigating to the user management which you can find in the left navigation. Click the context menu item “Set user password” that appears by moving the mouse pointer over the user account.

The screenshot displays the VIMP user management interface. On the left is a navigation menu with items: Dashboard, Media, **Users**, Groups, Channels, Albums, Blogs, Forum, Tags, Slide show, Pages, Categories, and Payment. The main content area is titled 'User index' and includes a 'Batch actions' dropdown, a 'Go' button, and action buttons for '+ Add', 'Update', 'Reset', and 'User Import'. Below these is a table with columns for 'Avatar', 'Users', and 'E-ma'. The first row shows an avatar and the username 'admin'. A context menu is open over the 'admin' user, listing options: Edit, Lock, Recalculate statistics, **Set user password**, Producer settings, Comments, and Messages.

Following this, please set a new password for each of the three default users to avoid exploits:

Set user password:

User name admin

Password*

Password (repeat)* 

Password change required at first login

If you don't need the default user accounts anymore, delete them by clicking the "Delete" button in the context menu.
