VIMP documentation

Table of contents:
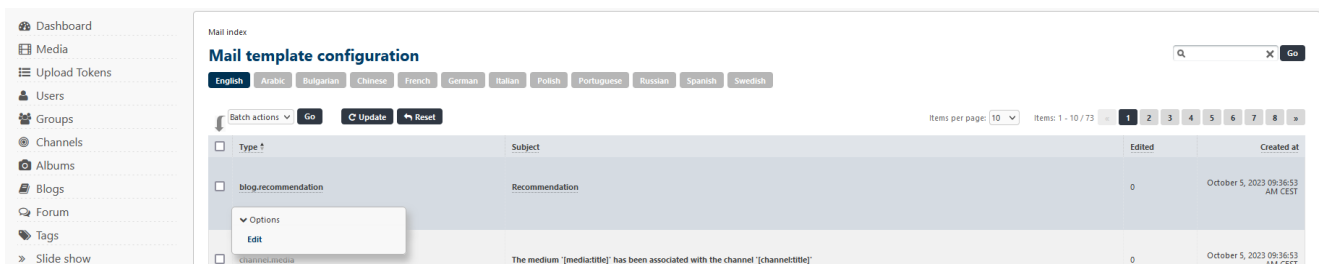

Mail templates

E-mail texts (e.g. for notification e-mails) can be edited in the backend as well.

Enter the e-mail template configuration by clicking the "**Mails**" link in the top link list.

The main view displays the list of existing e-mail templates.

Editing a mail template

By clicking the „edit" link of the context menu you will be lead to the edit form.

Language selection

Select the language you want to edit.

Content

Subject:

The subject of the e-mail.

Text:

The body text of the e-mail.
